A fee of \$ _____ made payable to the **City of Bemidji** must accompany this application. Additional escrow or verification fees may apply for approved projects.

An escrow of \$ _____ made payable to the **City of Bemidji** must accompany this application. Additional escrow or verification fees may apply for approved projects.

An escrow account is established as indicated above to cover technical and legal expenses incurred by the Joint Planning Board (JPB) as part of the plan review. The applicant is responsible for all costs incurred by the JPB during plan review. If the escrow amount drops below 10% of the original deposit amount the JPB may require submittal of an additional escrow deposit sufficient to cover any anticipated expenses. Upon determination by the JPB that the project is complete or expired, the JPB will return the remaining escrow deposit to the applicant.

Site Plan Instructions

Site Plan approval is required for any coop, loft, beehive, or other external structure used for outdoor exotic animals or livestock, even if the proposed dwelling is part of an existing structure.

Setback and Location:

- Coops, lofts, hives, or other external structures for livestock or exotic animal housing must be located in the side or rear yards.
- Beehives must be setback at least 10 feet from property lines, 25 feet from principle buildings on abutting lots, and 15 feet from a public sidewalk.
- Any other coop, loft or outdoor livestock or exotic animal housing must meet twice the required side and rear yard setbacks according to your property's zoning district (see Article IV of the Zoning & Subdivision Ordinance <https://www.jpbgba.org/zoning-ordinance>).

Size: The size of the structure will vary based on the size and number of animals being kept.

Other Permits:

- If a fence is to be constructed, a fence permit may be required.
- If the structure is larger than 200 square feet, a building permit must be obtained by the property owner or a licensed contractor.
- If electricity is to be provided for heating or lighting, an electrical permit must be obtained by the property owner or a licensed contractor.

Minimum Site Plan Requirements: A site plan is a drawing looking down on the lot, showing the dimensions of the lot, the house, garage, driveway, and existing buildings. The Site plan must include:

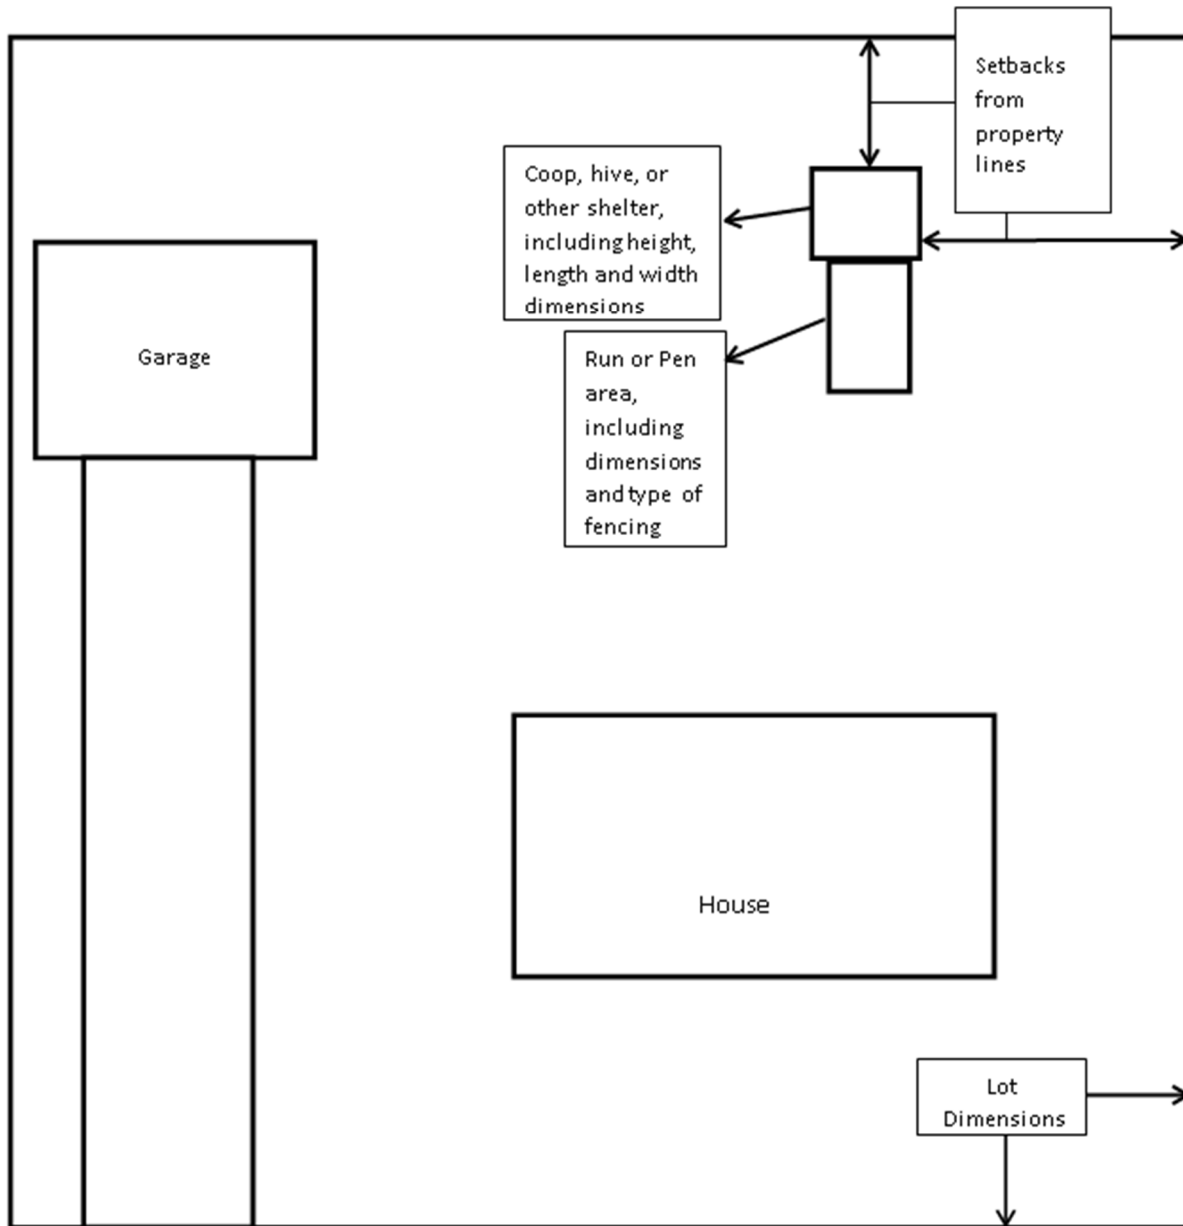

- The location and dimensions of the structure where the animals will be housed.
- The location of fencing (must have written agreement from neighbor if fence is to be placed on a shared property line).
- The distance the proposed buildings are set back from property lines.

GIS Tools: The City of Bemidji online mapping system provides property data and measuring tools. Visit <http://arcgis.co.beltrami.mn.us/Bemidji/link/jsfe/index.aspx>

A sample site plan and proposed format can be found on the following pages, for your convenience.

Sample Site Plan

This is a sample only. Do not use this page as your site plan.

Site Plan

This site plan format is optional: It is available as a convenience –site plans may be provided in other formats, so long as they contain all necessary information.
